to develop the industry and
generate mutual benefits

FOUNDING COMPANY

WHAT IS IDCE 2025?

The leading platform for global downstream professionals to connect, innovate, and drive industry progress. Featuring a dynamic **conference** cutting-edge **exhibition**, and expert-led **technical** sessions, the event fosters collaboration, investment, and sustainable solutions for the future.

CONFERENCE

- A leading global platform insights.
- Drives collaboration, innovation, and best practice sharing.
- Top Industry Experts delivering for downstream industry discussions.

EXHIBITION

- A showcase of the latest technologies and industry solutions.
- Partnerships to key stakeholders, investors, and innovators.
- Facilitates networking and business growth opportunities.

TECHNICAL Sessions

- Expert-led discussions on industry advancements and solutions.
- Covers refining, petrochemicals, sustainability, and efficiency.
- Focuses on enhancing safety, performance, and environmental impact.

IDCE 2025 CONFERENCE

The flagship event for the downstream industry, bringing together leaders, experts, and innovators to shape the future of refining, petrochemicals, and sustainability. With cutting-edge insights, groundbreaking discussions, and unrivaled networking, participants gain strategic knowledge, discover emerging technologies, and forge powerful connections that pave the path for collaborations and drive career growth and business success.

The conference will showcase more than 203 expert speakers and we expect to engage over 6,270 visitors throughout the duration of the conference. With Over 10 diverse activities and engagement opportunities, the 2025 edition will set new benchmarks for knowledge exchange and collaboration.

The upcoming edition is to power pack with visionary leaders, breakthrough innovations with cutting-edge tech and trends, with sharing best practices, and strengthening the relationships, offering a bold focus on next-gen talent.

IDCE 2025 EXHIBITION

The ultimate marketplace where industry leaders, solution providers, and decision-makers connect, collaborate, and unlock new opportunities. With top-tier exhibitors showcasing breakthrough technologies and cutting-edge solutions, participants gain exclusive access to strategic partnerships, investment opportunities, and industry-shaping innovations that drive business success.

The IDCE 2025 exhibition will feature over 150 companies from 53 countries, providing a premier platform for industry networking and showcasing the latest advancements in downstream innovations. The exhibition is expected to attract more than 1,500 trade visitors and 190 media & press representatives, creating a dynamic environment for collaboration and business opportunities.

From live demonstrations to hands-on product experiences, the exhibition is a catalyst for growth, fostering powerful collaborations that accelerate progress in refining, petrochemicals, and sustainability, in addition, with interactive demos, and networking hubs, an unparalleled exhibition experience sets new benchmarks, and in the awaits.

IDCE 2025 TECHNICAL SESSIONS

The hub of technical excellence, where industry experts, researchers, and young talents present groundbreaking studies, innovative technologies, and real-world case analyses in refining, petrochemicals, and sustainability. Participants gain deep technical know-how, proven methodologies, and cutting-edge solutions, helping them tackle industry challenges, optimize operations, and drive efficiency.

The 2025 edition will offer an enriching learning experience for over 550 students, providing them with the opportunity to gain valuable technical insights directly from industry experts. Through a series of expert-led presentations, students will be exposed to the latest technologies, innovative practices, and real-world case studies driving the future of the downstream sector. This unique experience will allow students to engage with industry leaders, ask questions, and acquire practical knowledge that will enhance their careers in refining, petrochemicals, and sustainability.

The upcoming Technical Paper Session promises to be more dynamic and impactful than ever! Expect expanded focus on emerging technologies, cutting-edge research, and innovative solutions addressing the most pressing challenges in the downstream industry.
